Orders in progress

Top six by attention

Order	Project (sample)	Systems	Value	Stage	Status
ORX-0418	Private villa, Al Barari	Fusion · Freedom · Renson	AED 300,535	Production	Renson kit lead time tight
ORX-0402	Townhouse cluster, Dubai Hills	Fusion	AED 1,240,000	Procurement	DGU shortage, start slips 6 days
ORX-0397	Penthouse, Riyadh	Freedom · Renson	AED 865,000	Production	On track
ORX-0391	Office fit-out, Business Bay	Fusion	AED 612,000	Production	Margin 26.9% vs 35.0% estimated
ORX-0385	Villa refurbishment, Jumeirah	Freedom	AED 284,000	Ready to dispatch	Dispatch 24 Oct
ORX-0377	Show apartment, Riyadh	Fusion · Renson	AED 198,000	Installation	Handover 30 Oct

AI INSIGHT · SAMPLE

Actual margin is 3.8 points below estimate. Supplier A's profile price rise explains 1.6 points across 14 orders. Locking a quarterly price for Fusion profiles would have protected about AED 136k.

Open finance view

Production load

Next week, % of capacity

Cutting	82%
CNC machining	104%
Assembly	76%
Glazing	69%
QC & packing	52%

Line 3: Freedom pivot entrance door

Cost per unit

Material	9,800
Glass	1,900
Accessories	3,600
Labour	1,600
Outsourced	2,200

System	Freedom · Offset pivot, vision panel
Size	1,400 × 3,000 mm
Finish	Anodised bronze
Glazing	DGU vision panel
Production route	Freedom workstream · anodising subcontract
Unit cost / price	AED 19,100 / AED 29,605

Bill of materials

Line totals, feeds Procurement

Code	Component	Qty
FRE-PRO-203	Freedom pivot frame 6.5 m, mill finish (for anodising)	2 bars
GLS-DGU-28	DGU 6 / 16 Ar / 6 low-E, toughened	2.1 m²
–	Pivot hinge missing	–

Checks before approval

Rule checks and AI review. All items must be cleared or approved.

Line 3: pivot hinge model not specified
Door leaf weighs about 210 kg. The BOM cannot be completed without a rated hinge.
ACC-HDW-PV1 · 300 kg rated | Add to BOM

Line 2: glass cost is 12% below the last six Fusion casement quotes
Check that the DGU specification and area are correct before approval.
Checked, spec is correct

Line 5: gross margin 24.2% is below the 28% approval threshold
Needs Commercial Director approval, or raise the markup to about 39%.
Raise markup | Approve at this margin

Approval rule (sample): gross margin below 28% needs Commercial Director approval; below 20% cannot be approved.

OC-2026-0418

Generated from the approved quotation and configuration. Nothing on this page was typed by hand.

Issue OC and create PRF | Audit trail (9)

ORX-0418 Private villa, Al Barari | SAMPLE DATA

Quotation — 2 OC — 3 PRF — 4 Procurement — 5 Production — 6 Warehouse — 7 Finance

Generated from Q-2026-0418 Rev 2 | Checked by Sales | Issued to client

AI CONSISTENCY CHECK

OC matches Q-2026-0418 Rev 2 on all 6 lines: quantities, sizes, finishes and prices agree. One note: lines 3 and 4 use anodised bronze, so the client should approve a finish sample before PRF release.

PR-0418-03	Renson · Factory order On-time 89% · quality 4.8/5 · Single approved source	REN-CAM-K60 × 1 REN-FIX-Z30 × 6	AED 68,100	16 Dec 2026	Awaiting approval

AI SUGGESTION · SAMPLE

ORX-0402 also needs 32 bars of FUS-PRO-001 by 04 Nov. Combining both into one order of 78 bars reaches Supplier A's full-bundle price (about 4% lower). Neither delivery date moves.

LEAD-TIME WATCH

Renson kits arrive 16 Dec 2026. Required on site 12 Jan 2027, leaving 3 weeks for assembly and transport.

Work orders

Each manufactured line becomes a work order with its BOM, routing and labour standard. Record material issue, progress and scrap where the work happens.

Receivables over 60 days	AED 0.58M	4 clients
COGS this month	AED 1.92M	On delivered orders

AI VARIANCE EXPLANATION · SAMPLE

ORX-0418 is forecast 2.5 points below its estimate. Labour is the largest driver: CNC overtime and glazing-bead rework on the casements. Material follows, from Supplier A's price rise after the quotation was approved.

Recommendation for review: re-quote Fusion profiles monthly until a price lock is agreed, and add a bead-fit check at assembly.

AI explains variances. It does not post entries, adjust costs or close periods.
